Introduction

After completing the prior five year strategic plan, the LADD Inc. board and leadership determined the need to develop a new strategic plan to guide the organization into a changing future.

Phase one of the planning process was an assessment to provide a comprehensive evaluation of what LADD is doing and to provide insight into what LADD should focus on in the future. To gain this understanding as objectively and thoroughly as possible, the following activities were completed:

- Analysis of financial trends.
- Analysis of service delivery trends.
- Interviews with persons served to understand satisfaction and wishes.
- Interviews with parents to understand satisfaction, wishes for their family member, perceived agency strengths, concerns, and expectations.
- Focus group with staff members to understand recent trends, strengths, opportunities for improvement, and needed accomplishments.
- Interviews with Hamilton County Board of DD and Ohio Provider Resource Association staff.
- Vision of the future exercise with members of the strategic planning committee.
- Evaluation of recent changes at the state and federal level and identification of needed changes.

The information from this assessment was used to develop this strategic plan.
